

Internet so I need a programmer for my games.

Richard Bayliss please contact Andrew Fisher or Allan Bairstow for my contact details, I'd love to do some joint '64' Game projects with you !!! The graphics got a reasonably quiet nod of respect, which I suppose is to be expected cos' you can't tell how a game is gonna' play from just graphics...

We also got to look at various Plus/4 and VIC 20 demos, good stuff !!!

Also during the day we got an exclusive play on the new Protovision games - Metal Dust (ABSOLUTELY INCREDIBLE) and Tanks 3000 (a nice 4 player shoot-em up).

Anyway the day flew by and we were soon heading off to PIZZA HUT and then off back to Allan's to drop his car off and go to the pub and have a few drinks... Nuff Said.

Anyway we went back to Allan's and while I sat down in a drunken stupor the boys were talking programming, I had a headache listening to them but intelligence was never one of my strong points...

Next morning we had some food and fired up the computers, I got to play some more Plus/4 games. The Plus/4 really shocked me - it's up there with the 64, it really is a fantastic games machine !

Alas all good things come to an end and me and Andrew had to leave for the bus

station for our respective journeys home.

As we were leaving Jason Kelk arrived, I'm told he had some more game demos with him including the fantastic Pinball Dreams for the unexpanded 64, soon everyone will be able to play this amazing Pinball Game!!!

Before I finish I would just like to say a BIG THANKYOU to Allan and his family of course for being such good sports and organising this event. I HAD A FANTASTIC TIME AND THOROUGHLY ENJOYED MYSELF !!!

Finally to everyone who attended
- **WELL DONE !!!**

CSIS 2006

The Commodore Scene Importing Service will be restarted for 2006 - but as you might have guessed - it will have changed, regrettably.

A large list/descriptions of items will be available but I will no longer accepting orders for items that I can't guarantee delivery for.

Some items will still be available directly from CSIS and they will be indicated accordingly, the other items that are difficult to get will have a link to the relevant site so you can order them directly.

I'm sorry about this state of affairs but I am now having to refund large amounts of money from outstanding orders which is causing me financial problems. I could really do without this hassle.

RETRO GAMER

Much to most peoples surprise the much loved retro magazine Retro Gamer has closed its doors for the last time.

Despite being one of the companies best selling magazines, the death knell for this magazine was sounded long ago when the 'money men' got their fat greedy hands on it, out went the guys who knew what they were talking about
